EXPERIENCE

Microsoft Power by CloudThat

02/07/2025-17/07/2025

Data & AI Skills Internship Program 2025

Surat, Gujarat

- Completed Azure AI Fundamentals (AI-900) certification. Built NLP solutions with Azure AI Language.
- Developed generative artificial intelligence (AI) models in Azure Machine Learning.
- Performed data analysis using Microsoft Power BI Data Analysis (PL-300).

Beyond Karma Tech

09/01/2026 - Current

Machine Learning Intern

Surat, Gujarat

- Developed **diffusion-based image generation models** using **Hugging Face** and analyzed **2.2K+ social media ad records** to identify **high-conversion audience segments**, improving **category-specific targeting** by **~15–20%**.
- Built and deployed **production-grade ML pipelines** using **Docker** with **CI/CD automation**, reducing manual deployment effort by **~40%** and improving release reliability across model iterations.
- Deployed **GPU-accelerated ML and LLM inference workloads** using **Kubernetes**, implementing **vLLM-based serving** to achieve **~30% lower inference latency** on **AMD MI300X GPUs**.

EDUCATION

Indian Institute of Technology, Madras

2023- 2027

B.S. Data Science and Application

Surat, Gujarat

GEC, Surat

2022- 2026

B.E. Electronic & Communication Engineering

Surat, Gujarat

PROJECTS

Quick Chat | Next.js, TypeScript, Tailwind CSS, and Prisma

- Developed a **real-time chat app** with authentication and group/private messaging using **Next.js, Socket.IO, and Prisma**, supporting **100+ users** and **~50–100 msgs/sec**.

Home Finder | React, Typescript, Supabase, and PostgreSQL

- Developed a **real-time home and PG finder** with **roommate matching**, using **React, Supabase, and PostgreSQL**, supporting **200+ listings** with a responsive UI.

Facial Recognition Student Attendance System | Python, Machine Learning, Image processing

- Built a **face-recognition attendance system** using **OpenCV** for face detection and **KNN-based classification**, optimizing preprocessing and dataset pipelines to improve recognition accuracy by **~15–20%**.

Flipkart Grid 6.0 Robotics Round-2 | CNN, Machine Learning

- Built and trained a **CNN-based image classification model** to recognize **fruits, vegetables, and perishable items**, achieving **~85–90% accuracy** on a custom dataset.

TECHNICAL SKILLS

Languages :- C, C++, Python, JavaScript, TypeScript

Web Development :- Next.js, React.js, Tailwind CSS, HTML, CSS

ML & GenAI :- Diffusion Models, Generative AI, CNNs, Hugging Face, NumPy, Pandas, EDA

MLOps & Deployment :- Docker, Kubernetes, CI/CD Pipelines, Model Deployment, vLLM

Cloud & Infrastructure :- Microsoft Azure, Azure Machine Learning, Google Cloud Platform

Databases :- MySQL, PostgreSQL, MongoDB

Tools & Analytics :- Git, GitHub, VS Code, Power BI, Data Visualization

CERTIFICATIONS

- NIT Surat Data Science Workshop
- Tata Imagination Challenge 2024 Student Track
- Microsoft Power BI Data Analysis (PL-300)
